

We have recently arrived home from another great trip organized by Jenni at Travelaction and I think Africa is the most exciting and amazing trip I have been on to date. Along with Giddyup to Africa, Jenni designed a trip specifically for us and with us and it turned out to be all that we could have hoped for. All the accommodation was wonderful and, where possible, strategically placed to enable us to really experience and observe the wildlife close to where we stayed. The safaris were awesome and we were lucky enough to see every animal that we could think of. A specialty of Giddyup to Africa is the horse riding safaris which was my highlight but the fishing on the Zambezi was the most exciting for my husband. We were also lucky enough to often come into direct contact with village life along the way so we left feeling like we had been given an authentic African holiday. Jenni is great to deal with and I really appreciate the effort that she puts in. She really listens to what we want and then makes it happen for us. Thanks Jenni
